

Level 3 Award in Undertaking End-Point Assessment

The objective of this qualification is to provide specific knowledge and skills for those who plan to undertake end-point assessment processes and practices.

It is designed to support those who have sector competence within the areas of approved apprenticeship standards and would like to gain a more in-depth understanding of end-point assessment processes and practices. This qualification has been designed to cover assessment methods that are used in most assessment plans for approved apprenticeship standards.

Rapid Results

Your assessors can gain the knowledge and skills required to deliver EPA's within 1 month of enrolling.

Flexible Delivery

Our blended delivery of pre-recorded and live training sessions means that disruption to your teams working week is minimised.

Competent Assessors

Capability 360 has a large assessment team with a broad range of occupational competence. All of our assessors have proven experience in assessing competency-based qualifications.

Qualification Structure

Your staff will be developed against five Learning Outcome's. Our training will enable the learner to understand and use end-point assessment principles and practices, in either a work environment or simulated environment, to assess an apprentice against an apprenticeship standard.

Evidence for learning outcomes 1, 2, 3 and 5 will be gathered through the completion of an open response assessment pack. Evidence for learning outcome 4 will be gathered from carrying out practice end-point assessments in a work environment or within a simulated environment.

Learning Outcomes
1. Understand the principles and practices of End-Point Assessment
2. Understand different types and methods of End-Point Assessment.
3. Know how to plan End-Point Assessments in line with the apprenticeship standard and assessment plan
4. Be able to make End Point Assessment decisions
5. Understand quality assurance of the End-Point Assessment process
